COPYRIGHT NOTICE

This book has been reproduced from an original document, copyright of which lies with the BRB (Residuary) who have given the following permission for it to be reprinted:

"*The Board has no objection to copies of these documents being made in paper form so long as they are for private information or for non-commercial enthusiast or railway club purposes and are not sold or lent for any payment other than to cover copying or transmission costs.*"

As such, this document should not be passed on for sale.

A list of available documents can be found at:— http://wttreprints.uk

The original document is one of a number in my collection that I have scanned. Normally, I produce quality printed documents from these but I have found that these smaller documents attract little interest so I decided to make them available as a free download. You may download and print them out as you wish.

A Supplement to the Special Traffic Notice will be issued on Thursday, 16th July, and should be received by Friday noon.

For particulars of Stock, Power and Guards not shown in this Notice see Special Workings.

Reporting of Ordinary and Special Passenger Trains—The running of the ordinary and special passenger trains to and from Blackpool and Fleetwood and the running of other special passenger trains on Saturday, 18th July, must be reported to the Divisional Control Office (except from reporting points in the Wakefield D.O.S. Area, who must advise Wakefield Control), giving particulars of the departure from the starting stations, passing or departure time at the usual reporting points, and arrival at destination.

During the period Sunday, 19th July to Friday, 24th July, the running of special passenger trains must be reported to the appropriate Control Office.

If any of the trains are stopped en route except in accordance with the working schedule, the signalman at the signal box where the delay takes place must promptly telephone the information to the Control.

In telephoning to the Control, **signalmen must give the train reporting number.**

Mails, Parcels, and Newspapers for Blackpool and Southport must not be forwarded by special trains to these places without special authority.

Empty Trains from Manchester to Blackpool, Southport, Liverpool. Horwich, or Lostock Hall direction, timed via Castleton South Jn., may be diverted via Prestwich. Trainmen must be prepared accordingly.

Special Trains—Yorkshire, E.L. District, and Western Division to and from Blackpool—Special trains to Blackpool direction from Yorkshire and East Lancashire Districts not booked to call at Preston may be diverted, if necessary, via Lostock Hall Connecting Line or via Todd Lane Jn., instead of by the scheduled route.

Special trains from Blackpool direction shown to travel via Preston (E.L.) must, as far as possible, travel over the fast lines from Kirkham and, when not booked to call at Preston, may be diverted at Preston via Farington Curve Jn. according to circumstances.

Special trains from Blackpool direction travelling via Farington Curve Jn. and Lostock Hall must be banked in rear Farington Curve Jn. to Lostock Hall Engine Shed Box when necessary.

Diversion of special trains, requiring a bank engine, will only be made when a bank engine is provided at Farington Curve Jn.

Drivers must be prepared to act promptly in accordance with the signals exhibited at Bamber Bridge Jn. for down trains and Preston No. 4 for up trains.

The Station Masters at Blackpool (Central), (North), and (South), and Fleetwood must advise Preston Control, the latter in turn to advise Manchester Control, the tonnage and class of engines for up starting trains scheduled to travel via E.L. routes, also Western Division trains for the North via Farington Curve Jn., and Lostock Hall, when the weight exceeds the tonnage laid down between Farington Curve Jn. and Lostock Hall on page 3 of the loading pamphlet for the class of engine working the train.

Special trains for East Lancashire Line travelling via Todd Lane Jn. or Farington Curve Jn., requiring assistant engine up Hoghton Bank, must attach the assistant engine at Bamber Bridge Jn.

Special Trains from the Wigan direction to Southport and return will travel via Blowick or Meols Cop as required. Trainmen must be prepared to act accordingly.

SATURDAY, 18th JULY
