FREIGHT TRAIN ARRANGEMENTS.

74—TRAINS HAULED BY ELECTRIC LOCOMOTIVES.

During the night period when it is normal for the Traction current to be switched off or when the Engineer has possession of Sections of the line of route over which an Electric Locomotive has to operate, care must be taken that trains hauled by the Electric Locomotives do not run before their scheduled times, to ensure that the locomotive shoes do not charge with current sections which have been switched off whilst repairs to the permanent way are in progress.

Trains hauled by Electric Locomotives are to be provided with a 25 ton Freight Brake Van wherever possible.

75—LOADS OF FREIGHT TRAINS (F.W.B. Page 92).

Fareham and Eastleigh: Amend load for "Q.I." Class to read "Equal to 65 Loaded Goods."

LOADS OF FREIGHT TRAINS (F.W.B. Page 94)

Shalford and Reigate. Amend Note "F" to read:—"Trains exceeding 55 vehicles in length to be given a clear run from Shalford to Gomshall."
