1953	16th May	1.90

BRITISH RAILWAYS

Working Time Table Reprints

COPYRIGHT NOTICE

This file has been produced from an original document, copyright of which lies with the BRB (Residuary) who gave the following permission for it to be reprinted:

"The Board has no objection to copies of these documents being made so long as they are for private information or for non-commercial enthusiast or railway club purposes and are not sold or lent for any payment other than to cover copying or transmission costs."

A list of available documents can be found at
<http://wttreprints.uk>

The original document is one of a number in my collection that I have scanned. Normally, I produce quality printed documents from my scans but I have found that these smaller documents seem to attract little interest so I have decided to make them available as free downloads. You may download and print it out as you wish.

EXPLANATION OF REFERENCES

B —As shown in Service Time Tables and Supplements thereto.	PD —Take up or set down pilot-driver.	WE —Runs to Western Extension at Bournemouth Central.
D —For running times see another section.	S —Shunts for or passes another train.	X —Crosses another train on Single line.
DN —See other District Notices.	T —Through line.	 —Light engine.
L —Local line.	V —Calls for working purposes. If train running late, stop not to be made.	† —Empty train.
Q —If required.	W —Calls for water.	‡ —Collect tickets.
		★ —'Pull and Push' train.

Explanation of Codes for Coaching Rolling Stock are to be found in booklet BR.87222, 1st July, 1950, 'Standard Codes for Telegrams,' Appendix 'A,' pages 68-70 inclusive.

OPENING OF SIGNAL BOXES.—Signal boxes to be open to meet the requirements of the traffic.

CARRIAGE CLEANING ARRANGEMENTS.—Berthing Stations or Depots at which trains are made up are required to see that all vehicles are properly cleaned before being released for traffic.

Terminal stations at which stock turns over, must also arrange as far as possible, for any necessary light cleaning such as sweeping, dusting and the cleaning of brasses, windows, lavatories, etc., to be performed before trains take up their subsequent journey.

Guards are required to draw the attention of Station Masters or Supervisory Staff to any stock formed in their trains insufficiently cleaned or equipped and also report the same on the Train Journal.

Berthing stations or depots at which trains are berthed must arrange for water tanks to be replenished before departures.

Should difficulty arise in carrying out these instructions, owing to lack of facilities, etc., an advice must be sent me promptly in order that suitable arrangements can be made.

S. W. SMART,
Superintendent of Operation.

26th May, 1953.

SATURDAY, 30th MAY

No. 1—Train Alterations and Additions
